## Profile

I am a highly passionate software engineer with experience developing enterprise level software systems. I have developed a strong understanding of a large number of programming software; however, I am now seeking a full-time position to specialize my skillset.

## Experience

Software Engineer (Freelancing) – Nov 2017- Present

- Ziller Karaoke: Made their landing page with HTML/CSS and Angular. Built their admin page with Angular, Express, Node, PostgreSQL on AWS ec2 instance.

- Los Angeles Fashion District Admin Application: Built the Admin page using Angular, Express, Node and PostgreSQL. Made the mobile app with Ionic and Cordova on Angular.

Software Engineer, GoRn LLC – July 2017-Oct 2017

Played an integral role in the software team building the frontend with KnockoutJS, Jade and SASS, writing queries for the db, making the API and deploying to AWS instances.

Server, Sake 2 Me Sushi – Jan 2016 - Nov 2016

Gained customer service experience from this and learned a great deal about business operations while ordering some of the product for the restaurant.

Sales Representative, The Vault – Jan 2016 - Nov 2016

Ordered merchandise for the store, handled customers, went to trade shows with the owner of the store.
